Homme Homes Wellness Center Open House Set for September 28

(Wittenberg, WI) Homme Homes is opening a new wellness center this week at its Wittenberg campus. The Homme Wellness Center will offer outpatient and inpatient physical and occupational therapies, as well as speech and language pathology treatments to residents and short-term rehabilitation patients of Homme Home--Wittenberg and to residents of all ages from nearby communities in eastern Marathon County and western Shawano County who require therapy.

An open house for the health care community and general public will be held tomorrow, Wednesday September 28, 2011, from 3:00 pm to 6:00 pm. A special therapy presentation by Stacy Schubert OTR will take place at 5:00pm. Refreshments and hors d'oeuvres will be provided.

The Homme Wellness Center includes a modern therapy gym, a private treatment room that is equipped to treat patients with lymphedema, and a communications room. The Homme Wellness Center has its own private entrance and parking area to ensure convenient access for outpatients.

"We are delighted to be able to offer such an advanced level of therapy and rehabilitation services to our area residents," said Steve Seybold, executive director at Homme Homes. "Our new Homme Wellness Center will make it much easier for people all over Central Wisconsin to access high quality rehabilitation services in a timely manner."

Up to eight professional therapists will be on site daily at the Homme Wellness Center to assist with lymphedema management, continence management, pain and contracture management, along with numerous other specialties. The new center includes state-of-the-art rehabilitation equipment and technology, such as the Omnicycle which supports expanded therapy services for neurological, orthopedic, and cardiopulmonary rehabilitation.
